The Quanta Lighting Accents series are decorative lighting fixtures designed to enliven retail stores, restaurants, hotels, and homes. Quanta sconce design breaks away from traditional lamp design symmetry, by setting the glass elements off the center line, making the lamps speak to the space outside its own geometry. This idea comes from modern physics, where Quantum Mechanics explains how nuclear symmetries are broken down by the existence of new particles, and a new balance is achieved. They are made of handmade steel cases with glass openings.

Price per Unit:		\$299
Custom Colors:	Add	\$99
Outdoor Unit:	Add	\$49

Technical Specifications

Dimensions		Electrical Requirements	
Outer Diameter:	12 inches	Voltage:	120V - 250V
Inner Opening:	8 3/8 inches	Max. Watts:	60W
Depth:	4 inches	Suggested Light Bulb:	5000K 22W Compact fluorescent
